

**PROJECT NAME:** CARTON QUARRY

**PROJECT TYPE:** QUARRY

**CLIENT:** MCTIGUE QUARRIES LTD

**DATE:** APRIL 2013

Neo Environmental were commissioned by McTigue Quarries to undertake a Cultural Heritage Impact Assessment associated with the operational quarry at Carton in County Galway as part of a Remedial Environmental Impact Statement (EIS).

### Neo Environmental's involvement:

- Undertook a desk-based assessment to ascertain all historical and archaeological information relevant to the site and the local area for the EIS
- Conducted a site walkover survey and field assessment of heritage assets within a 1km radius
- Produced Heritage visualisations, ZTVs and mapping for the project

### Project Outcomes:

- Impacts were low to negligible and the quarry received consent.
- No direct impacts from the developments associated within the quarry footprint were identified.
- The Heritage Chapter identified that heritage assets would not be impacted and this included the adjacent hilltop enclosure and cairn at Knockacarrigeen.
- The project received consent and there were no objections based on archaeology or Cultural heritage.
