

Case Study

PROJECT NAME: GRADDOCH BURN

PROJECT TYPE: HYDRO-ELECTRIC

PROJECT SIZE: 100kW

CLIENT: DERWENT HYDRO

Neo Environmental were commissioned by Derwent Hydro to undertake a comprehensive environmental assessment of Graddoch Burn Hydro-Electric Scheme in Newton Stewart, Dumfries & Galloway.

Neo Environmental's involvement:

- Conducted a Design & Access Statement.
- Undertook a Landscape and Visual Appraisal
- Carried out a desk-based Heritage Assessment
- Consulted with the local council on Noise
- Consulted with Historic Wales & Snowdonia National Park regarding Scheduled Monument Consent as the penstock passed within a scheduled area on a monument

Project Outcomes:

- A program of archaeological works was recommended as part of the mitigation measures for the proposed development.
- Noise issues were resolved through consultation with the Council and Environmental Health Officer.
