

Case Study

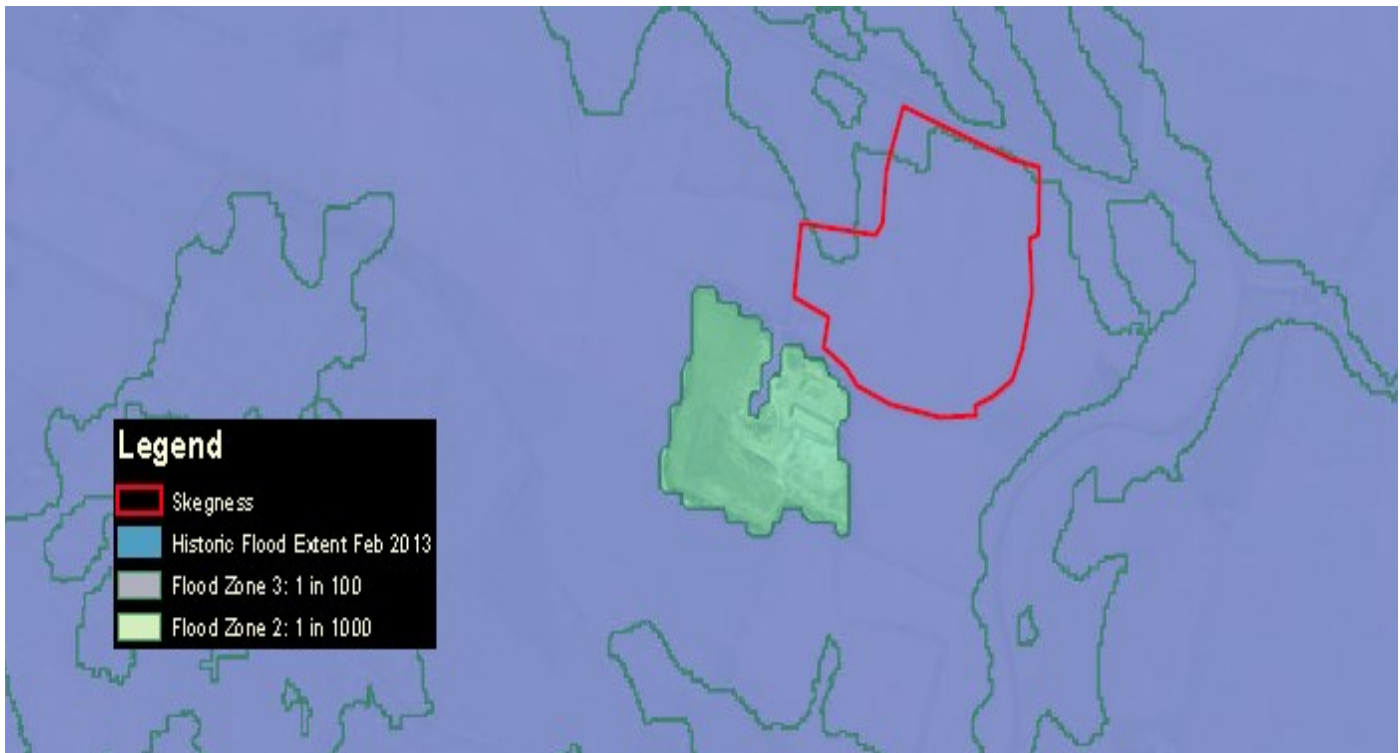

PROJECT NAME: SKEGNESS

PROJECT TYPE: FLOOD RISK ASSESSMENT FOR A SOLAR FARM

PROJECT SIZE: 6.5MW

CLIENT: CASTILLIUM LTD

DATE: MAY 2014

Neo Environmental were commissioned by Castillium to produce all a Flood-Risk Assessment to support a planning application for a 6.5MW solar energy development near Skegness, Lincolnshire.

Project Outcomes:

- No significant impacts were identified
- The project was consented at committee following a recommendation for approval from the planning officer
- A stringent program of archaeological investigations was conducted by Neo Environmental as part of the development conditions, with all archaeology fully resolved
- The development has been fully constructed and is operational
