

JOB OPENING—Associate or Principal Planner

Location: Warrington or Glasgow (Hybrid working offered)

Salary Description: Competitive + benefits

Start Date: ASAP

Neo Environmental, an award-winning planning and environmental consultancy, have an exciting opportunity for a Planner to join our expanding team working on our planning work in Ireland. The successful candidate will ideally have relevant experience in the Renewables sector. The position will offer the right individual the opportunity to work for a well-established and growing multi-disciplinary planning and environmental consultancy.

The successful candidate will work on a wide variety of projects, with the main focus on renewable energy developments. Prospective candidates will be expected to have excellent report writing skills and be well organised with meticulous attention to detail. We are seeking an enthusiastic person who is keen to learn and assist with a range of projects, with the ability to project manage.

The successful candidates should be RTPI accredited and will ideally have at least 7 years post-graduate planning experience, preferably in a consultancy environment.

Duties

- Overseeing Planning work
- Project Management and delivery of EIAs, Planning Statements, DASs, etc
- Project Management and delivery of Site Appraisals, Planning Statements, EIAs, etc
- Stakeholder Engagement and Management
- Co-ordinating in-house consultants and liaising with clients
- Organising and conducting site visits, team meetings and scheduling work
- Sub-contractor management
- Preparing and submitting planning applications
- Tender and Fee Proposal production

Essential Criteria

- Planning degree
- Have or working towards membership of the Royal Town Planning Institute (RTPI)
- Demonstrable experience of the successful delivery and management of projects
- Excellent working knowledge of the Irish Planning system
- The successful candidate will be required to produce reports for clients and so attention to detail, reliability, and good organisational skills are essential.
- Ability to project manage multi-disciplinary teams and multiple projects simultaneously
- Full driving license
- Own transport

Desirable Criteria

- Experience in the production of fee proposals or tenders
- Proactive networker
- Solar farm and/or wind energy experience
